

## Compliance

The Aquis Search Compliance team delivers specialist recruitment solutions to the corporate, legal and financial markets. Our experienced consultants have an in-depth knowledge and understanding of the compliance sector and provide a range of advisory services including market insights and salary information.

In recent years we have witnessed dramatic changes to the compliance industry and we understand the strategic importance of advisory compliance professionals. The central theme of corporate governance issues, both internal and external, is regulatory compliance.

At Aquis we recognise some of the greatest concerns faced by the global economy centre around responsibilities for leading enterprise compliance efforts. These responsibilities include: designing and implementing internal controls, policies and procedures to assure compliance with applicable laws and regulations, responding to requests for information from regulatory bodies and in light of the recent economic climate, managing audits and investigations into regulatory and compliance lapses.

The Aquis Search Compliance team understands the nature of developing regulatory frameworks and how these developments impact the human capital demands of compliance departments. Our team appreciates how regulatory benchmarks require that adequate human resources are maintained at the appropriate levels of expertise to manage day-to-day processes and ad-hoc scenarios.

We work with applicants that will bring a strong compliance culture to our clients' organisations and we are acutely aware how important it is to match our applicants with clients who heavily invest in regulatory responsibility and understand the importance of reputational risk.

We partner with the leading names within each of the industries we serve and have developed long standing relationships with our clients. By focusing on areas of business where our skills and resources deliver timely and effective solutions we connect talent with opportunity in a complex global market.

Typical Assignments include:

- Regional Head of Compliance
- Country Head of Compliance
- Compliance Advisory
- Anti-Money-Laundering
- Control Compliance
