

## Finance

The Aquis Search Finance team delivers specialist recruitment solutions to the corporate, legal and financial markets. Our experienced consultants have an in-depth knowledge and understanding of the finance sector and provide a range of advisory services including market insights and salary information.

At Aquis we understand that finance is a core aspect of business management. As the number of financial vehicles and methods of investment has increased, financial management has become more crucial and complex. In the current climate the importance of financial control has increased as organisations come under scrutiny.

We work with applicants that will help our clients carefully identify their relevant objectives and constraints, as well as strategy: institutional or individual goals, time horizon, risk aversion and tax considerations. At Aquis we appreciate that our client's fiscal goals and their use of appropriate financial vehicles are more important than ever.

We partner with the leading names within each of the industries we serve and have developed long standing relationships with our clients. By focusing on areas of business where our skills and resources deliver timely and effective solutions we connect talent with opportunity in a complex global market.
