

Human Resources

The Aquis Search human capital development team delivers specialist recruitment solutions to the corporate, legal and financial markets. Our consultants have an in-depth knowledge, understanding and experience of the human resources sector and provide a range of advisory services including market insights and salary information.

Aquis understands that an organisation's human capital plays a major role in defining its character. Corporate culture is developed by the professionals within the company who contribute much more to a productive enterprise than 'work'. This means that we partner with our applicants and clients to identify opportunities that define the individual as well as the organisation.

As a boutique executive search and selection firm we are well positioned to advise on the current and future trends of the labour market so that internal influences are easier to control, predict and monitor, in an array of organisational cultures, taking into account demographic, diversity, skills needs, geographic spread and occupational structure.

The Aquis Search Human Resources team provides opportunities for applicants who are able to develop human capital solutions within our client's organisations. We work with applicants who understand organisational development and who are able to build our clients organisational culture, whilst maximising their potential and minimising financial risk.

We partner with the leading names within each of the industries we serve and have developed long standing relationships with our clients. By focusing on areas of business where our skills and resources deliver timely and effective solutions we connect talent with opportunity in a complex global market.
