

Legal

The Aquis Search Legal team delivers specialist recruitment solutions to the corporate, legal and financial markets. Our experienced consultants have an in-depth knowledge and understanding of the legal sector and provide a range of advisory services including market insights and salary information.

Legal infrastructure is fundamental to business. Legal rules and systems are constantly created, changed and moulded to fit particular situations in business and as a result elaborate rights and responsibilities in a variety of ways. In the global economy most legal systems deal with similar issues, each country categorising and identifying its legal standards and principals in different ways. These differences are increasingly visible and create complex systems for businesses to interpret.

The Aquis Search legal team provides private practice and in-house opportunities for applicants. We work with, applicants who are able to help build global legal infrastructure for our clients, and with clients who value the importance of these systems in business. Our team services the full spectrum of law firms, domestic and international companies, as well as the financial services sector.

We partner with the leading names within each of the industries we serve and have developed long standing relationships with our clients. By focusing on areas of business where our skills and resources deliver timely and effective solutions we connect talent with opportunity in a complex global market.

Typical assignments include:

- General Counsels
- In-house Counsels
- Partners - Equity and Salaried
- Of Counsels
- Associates
